THE BOOK OF THE TRIANGLE — TLAE 3 —

THE BOOK OF THE TRIANGLE

The First Scroll

The Three Become One

In the beginning was the Point.

The Point sought direction.

Direction formed the Line.

The Line sought purpose.

Purpose formed the Triangle.

And the Triangle stood because each point carried the others.

Remove one...

and nothing remains.

The First Principle

Three is balance.

One is awareness.

Two is choice.

Three is creation.

A dream...

A decision...

An action...

Thus all things worthy are built.

The Second Principle

The weak chase circles.

The wise build triangles.

For a circle has no beginning...

but a triangle is always pointing somewhere.

The Third Principle

Every mountain has three sides.

The side the world sees.

The side your enemies see.

The side only the Creator sees.

Walk according to the third.

The Fourth Principle

Knowledge without action
is a sleeping seed.

Action without wisdom
is wildfire.

Wisdom...
Action...
Patience...

Together they harvest.

The Fifth Principle

Money serves.

Time rules.

Character remains.

Protect the one
that cannot be purchased.

The Sixth Principle

When one point grows proud...

the triangle leans.

When one point weakens...

the triangle shakes.

When all three remember their purpose...

nothing moves them.

The Seventh Principle

Do not worship symbols.

A triangle is only a reminder.

The Almighty Creator alone gives life.

The symbol only reminds us
to seek balance,
wisdom,
and purpose.

The TLAE3 Creed

I build.

I learn.

I create.

I rise without stepping on another.

I seek truth over applause.

I seek discipline over comfort.

I seek purpose over popularity.

The Triangle points upward...

so shall I.

Closing Blessing

May your mind remain sharp.

May your heart remain clean.

May your hands remain willing.

May your steps honor the Creator of Heaven and Earth.

May every triangle you build...

point someone toward something greater than thyself.
